

Introduction to GOM³

Course Length: 8 hrs

ArcGIS Version: 10.0

Overview

GOM³ is the industry-standard GIS for the Gulf of Mexico. It includes GOM Data, a set of standard maps, standard charts and a set of tools for analyzing the data. This course is a hands-on workshop, allowing users to spend a full day solving problems with the GOM³ data and tools.

Audience

This course is for those who are already comfortable with the basics of ArcGIS and want to learn more about using the tool provided in the GOM³ software extension for ArcGIS.

Topics Covered

Day 1

- Creating a Basic Map
- Using the Hotlink Tool
- Finding Oil Behind the Pipe
- Integrating Data for Analysis
- Company Lease Analysis and Map Layouts
- GOM³ for ArcView – 3D
- Introducing GOMsmart
- Using the GOMsmart Map

Prerequisites and Recommendations

Students should have knowledge of Microsoft Windows® and be familiar with the basic use of ArcGIS, including the topics covered in either the **Fundamentals of ArcGIS** or **ArcGIS Desktop I** classes.
